

## College of Science, Engineering and Technology

### Transitional arrangements at qualification level for 2023

Qualification	Module passed in the old curriculum	New module codes	Modules exempted in the new curriculum	Comments
Bachelor of Science Honours in Applied Mathematics (98921)	HMAPM80	HRAPM82	HRAPM82	Students who passed HMAPM80 and HRAPM81 will be exempted from HRAPM82
	HRAPM81	HRAPM82	HRAPM82	Students who passed HRAPM81 and HMAPM80 will be exempted from HRAPM82
Bachelor of Science Honours in Mathematics (98923)	HMMAT80	HRMAT82	HRMAT82	Students who passed HMMAT80 and HRMAT81 will be exempted from HRMAT82
	HRMAT81	HRMAT82	HRMAT82	Students who passed HMMAT80 and HRMAT81 will be exempted from HRMAT82
Bachelor of Science Honours in Astronomy (98920)	HRAST81	HRAST82	HRAST82	Students who passed HRAST81 and HMAST80 will be exempted from HRAST82
	HMAST80	HRAST82	HRAST82	Students who passed HMAST80 and HRAST81 will be exempted from HRAST82
Bachelor of Science Honours in Statistics (98922)	STA4801	STA4813	STA4813	Students who passed STA4801 will be exempted from STA4813
	STA4802	STA4812	STA4812	Students who passed STA4802 will be exempted from STA4812
	STA4810		The following modules can be used as an elective in place of STA4810 one of STA4808, STA4809, STA4811	

	STA4806 (24 credits)		STA 4814 (12 credits) plus, exemption for one elective module	
	[HRSTA82 (36 credits) or (STA4806 (24 credits) and STA4805 (12 credits) and one of the 12-credit modules STA4808, STA4809, STA4810, STA4811		HRSTA80 (36 credits) and STA4814 (12 credits)	Students who previously passed only STA4805 will not get credit for any modules in the new curriculum.
Bachelor of Engineering Technology Honours in Industrial Engineering (90154)	ENT4801 and MOT4801		CHE4809	Students who passed both ENT4801 and MOT4801 will be exempted from CHE4809.  Students who failed either ENT4801 or MOT4801, must register for CHE4809
