

## INVITATION

### MONITORING AND EVALUATION OF PERFORMANCE COMMUNITY OF PRACTICE

The Thabo Mbeki African School of Public and International Affairs in collaboration with the South African Association of Public Administration and Management (SAAPAM) invite academics, practitioners, and students to a scientific event on the Monitoring and Evaluation of Performance Community of Practice.

The main purpose of the event is to share ideas regarding monitoring and evaluation of performance and launch a Community of Practice that will be self-sustaining beyond 2023. To achieve this objective, international African experts have been invited to share experiences of their home countries. Similarly, local academics and practitioners were also invited to share their experiences. A number of key institutions in the South African government have been invited to be part of the Community of Practice. The proposed event is an attempt to address monitoring and evaluation as well as performance challenges which are epitomised by unsatisfactory service delivery.

Furthermore, the event seeks to synchronise the two areas, which are treated separately, thereby bringing some discord in the functioning of public sector institutions. The event will be hybrid as per the details below.
