

RESEARCH AND INNOVATION WEEK

Bridging the Gap Between Science and Society: Fostering Research and Innovation for Societal Impact

Directorate Innovation,
Technology Transfer
and Commercialisation

In collaboration with

2024 Video Competition

SDGs and IP for our Common Future

The competition ends on 17 May 2024.

On 26 April of every year, we celebrate World IP Day. The day presents a unique opportunity to emphasise the key role that IP rights such as patents, trademarks, designs and copyright play in promoting innovation and creativity.

We are offering you an opportunity to present your ideas that address UN's SDGs, particularly SDG3, SDG4 and SDG6.

To learn about our progress in addressing the SDGs, watch this insightful video: <https://www.youtube.com/watch?v=zF361a019zA&t=26s>

See competition details for a chance to win super prizes.
