

## ADMISSION POLICY

### 1. PREAMBLE

UNISA is a comprehensive open distance learning university offering vocational, professional and general formative qualifications nationally, regionally and internationally.

### 2. AIM

2.1 The aim of this Policy is to set the minimum criteria for admission (including re-admission criteria) for UNISA to all formal qualifications offered by the University.

2.2 In achieving the stated aim, this Policy recognises the prescriptions of the Higher Education Act, 1997 and acknowledges the vision and mission of UNISA.

2.3 The Policy further:

- reiterates the values identified in the UNISA 2015 Strategic Plan;
- reinforces the commitment to be responsible for open admission within the parameters prescribed by UNISA's Enrolment Plan;
- recognises, as far as is reasonably possible, the national and African regional imperatives of transformation through the implementation of equity-driven enrolment targets and will strive to ensure that the student population represents the demographic profile of the country and addresses historic inequalities and past discriminations that constrained access to higher education;
- confirms that applications for admission to all qualifications shall be considered without inappropriate distinction. However, mature students (those who will be 23 years or older at the time they start an undergraduate qualification) and students who have suffered educational hardship or disruption (including students with disabilities) may receive special consideration;
- emphasises UNISA's commitment to making higher education available to and inclusive of all, at both a national and African regional level; and
- promotes the full potential of every student after admitting him/her to studies.

It is proposed that Chapter 3 section A will then be amended and paragraph 2 will be inserted – the sense of which will be as follows:

2. *In addition, all students registering for the first time at a South African university must take the University pre-registration diagnostic test prior to their period of enrolment.*

In addition, a further section D may be added that will outline the implementation of the pre-registration diagnostic assessments that will be applied at UNISA. This will have to be taken from the MOAP .

<sup>9</sup> Section 37(4)(a) of the HEA

<sup>10</sup> UNISA will need to investigate admission requirements (and if these need to be introduced in addition to the HESA regulations) for students between 23 and 45 years who have no formal schooling qualification. The matter will be canvassed with all stakeholders and, if necessary, an amendment to the Policy will be brought to the Senate for approval during 2008.
