VOTE SETSA REGIONAL AND NATIONAL SRC

INTRODUCTION

- Sciences Engineering and Technology Students Association is a full rational legal entity of the University of South Africa whose organisational life is guided by its constitution. It's a student body under the College of Science Engineering and Technology.
- SETSA seeks to provide immediate and quality response to students needs and develop them through implementing creative programmes and furthermore promote science, engineering and technology as a career amongst students.
- In its quest to achieve its mandate SETSA runs programmes and activities centered on the students well-being and members of the communities we come from
- The programmes range from but are not limited to exposing students to the corporate world through taking them on visits to different companies and industries, organizing seminars and workshops for students in a bid to bridge the gap between theory and practice and further create ties with Industry.

PURPOSE OF SETSA

- SETSA seeks to improve the student life on campus by organizing research focused competitions and assisting students with the acquisitions of bursaries and scholarships and furthermore encourage students to play a meaningful role in the broader South African community.
- SETSA sits in various college committees representing students, these committees include but not limited to College Council, College Board where curriculum issues are dealt with and various College Community Engagements committees.
- This document outlines what a SETSA led Students Representative Council (SRC) seeks to achieve once elected into office.
